

System Requirements for Passport Business Solutions

Note: PBS Installs as a 32-bit application on a 64-bit operating system.

Microsoft Windows Workstations	<i>Windows 7 Pro, Windows 8, 8.1 Pro, and Windows 10 (32- and 64-bit) (not supported: Windows 7 Home, Windows 8 "Basic," or Windows RT)</i>
Microsoft Windows Servers	<i>Windows 2008, 2012, and 2014 (32- and 64-bit)</i>
SCO OpenServer UNIX	<i>v.6.0</i>
Linux	<i>glibc 2.3.4 or above within the Intel x86 series</i>
Microsoft SQL Server and SSRS	<i>Microsoft SQL Server 2008 R2, 2012 and 2014 Standard, Express, and Enterprise Edition.</i>

For RAM requirements, etc. please conform to the minimum requirements or better for the various Microsoft Windows operating systems.

PBS v.12.04 and above running on Microsoft Windows 7, Windows 8, 8.1 and Windows 10 requires an Installation of .NET framework v.4.0.30319 or above. It is also required if PBS is running while on Windows Server 2008, and Windows Server 2012 and Windows Server 2016.

Native client 11.0 is required to run PBS SQL.

Microsoft Windows 7 Support Ending

After January 14, 2020, Microsoft will no longer provide security updates or support for PCs running Windows 7. For users of Windows 7 Professional and Windows 7 Enterprise, Extended Security Updates through January 2023 may be purchased.
